

Sustainability 2021

We believe in being a responsible steward of our environment. Dohrn Transfer is committed to investing in sustainability and reducing our carbon footprint.

We believe in Sustainability and the impact it has to our Environment, Social & Economic concerns. Striving to create efficiencies supporting strategies focused to our people & technology to reduce our carbon footprint globally.

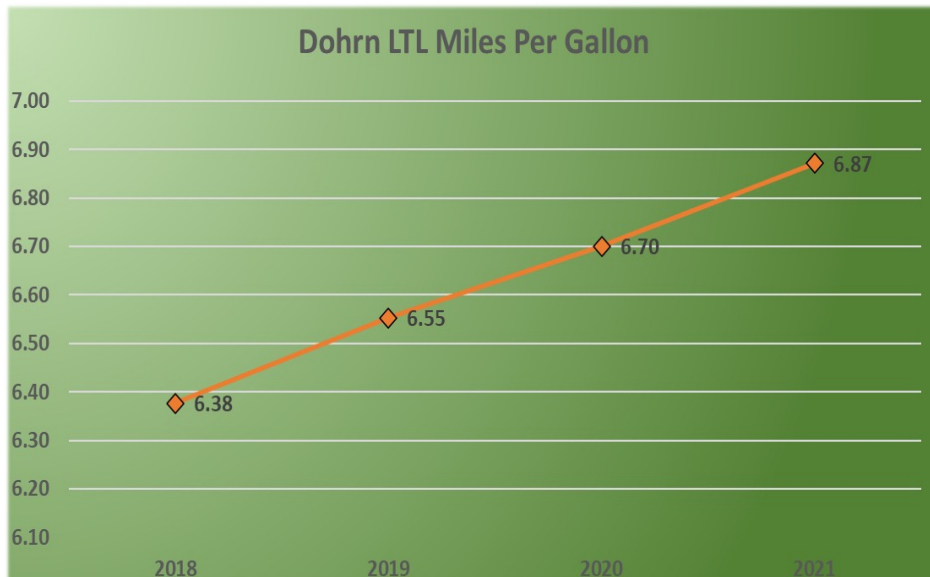

A glowing lightbulb and a small green plant growing from soil, symbolizing innovation and environmental growth.

Continuous improvements that impact the environment

- ❖ Driving a paperless environment with electronic bill of lading & delivery receipts
- ❖ Electric pallet jacks reducing forklifts, which save oil & propane & emits zero carbon.
- ❖ Carbon Footprint reduction with smaller & more efficient equipment
- ❖ LED Light fixtures that reduces the carbon footprint by up to a third
- ❖ Utilizing light sensors to reduce energy usage
- ❖ Low-flow fixtures & waterless urinals reduce water usage
- ❖ Recycling from office to terminal materials

Driving Fuel Efficiencies

- ❖ New fleet specifications high efficient driveline
- ❖ Trailer skirting
- ❖ Hybrid company vehicles
- ❖ Smart Tire inflation technology
- ❖ Preventative Maintenance
- ❖ Driver fuel efficiency dashboard
